Subject: RE: Agenda for Tomorrow's Meeting in Scituate

Perfect-thank you! There was some discussion on availability of land in Scituate abutting the Aaron Reservoir area to potentially service the areas near the Reservoir in Cohasset and a neighborhood in Scituate. These sewer areas are within the recharge for the water supply so we talked briefly about recharge, etc. Again, these conversations have been very high level to date.

See you tomorrow!

Rosemary

Thanks Rosemary, we have what CWMPs we could get our hands on and will bring along. I am planning on bringing three maps of the area that we can mark up as necessary. The Cohasset enforcement action I had asked you about was actually an ACJ that was closed in 2014. If anyone want the related documents to that action, I can forward along.

One of the reasons I am bringing the maps is to discuss any potential upland disposal areas. I know the subsurface in that area is not friendly place for recharge but I want to make sure that it has been discussed.

See you tomorrow.

Subject: Agenda for Tomorrow's Meeting in Scituate

Good Afternoon All!

Attached is tomorrow's agenda with a short presentation. Our goal is to have each community speak to their wastewater needs and then have a discussion of regional alternatives with regulatory comment on all things including environmental, permitting and any other topics that you want to talk about.

We have maps and other information to supplement the discussion.

Looking forward to seeing you tomorrow!

Again, Scituate Public Safety Building, 800 Chief Justice Cushing Highway, Scituate.

Rosemary
